

The Beach

On Jamaica's western tip lies a beautiful and magic place ... NEGRIL. The seven-mile beach is a magnificent stretch of pure white sand along which are dotted low-rise hotels, resorts and guest cottages hidden among the palms.

The crystal-clear turquoise water is well protected by numerous reefs and is free of rocks, seaweed or undertow. There is such a gentle drop-off that it is safe for even non-swimmers and children.

Sunsets are a main attraction here as each day melts into a glorious burst of color; everyone being unique and breathtaking. Some pastels; some intense with fire.

Come Play

Within a five minute walk are open-air crafts markets, the Village Center, tennis courts, and water sports centers offering snorkeling, scuba and every aquatic sport imaginable.

Just a taxi ride away are the spectacular West End Cliffs, horseback riding, mountain springs and caves.

Reggae Shows take place in Negril almost every night and feature some of Reggae's top names.

Come be our guest at Beach House Villas, we think you'll be back.

Negril Beach JAMAICA

Beach House Villa

Any closer to the water's edge and you'd be swimming! Our premier Villa is directly on the beach with fabulous views of the Caribbean! Large patios, decks and verandas create added "outdoor" living space.

From the second floor Penthouse, the Negril coastline enters the living room to our most luxurious accommodation. An oversize kitchen and larger baths with double sinks put the finishing touches to a perfect paradise. An exterior stair leads up to an immense railed rooftop deck with sweeping views of the coast!

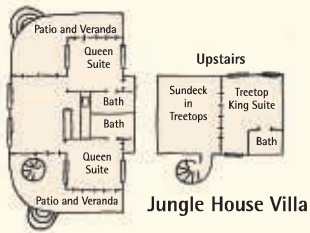

Reef House Villa

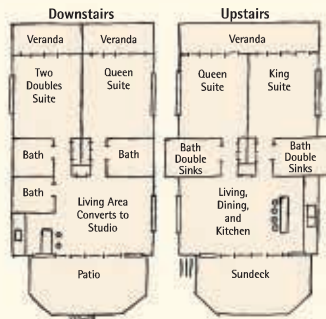

Tucked in the trees, the Reef House has the same basic floor plan as Beach House Villa. Wrap around verandas face tropical foliage and lead to larger decks facing the sea.

Jungle House Villa

Secluded among exotic gardens, the villa features high loft ceilings, with verandas and patios. Views of our native Botanical Garden offer a selection of Jamaican plant life, fruit trees and exotic vegetables ... just a stone's throw from the beach.

Jungle House Villa

Beach House and Reef House Villas

Beach House Villas

About the Villas

All three Villas feature walls of French doors and windows, high ceilings, a.c. plus ceiling fans, cable T.V., tile floors and baths, and are decorated with hand-made furnishings of native woods ... **All three Villas are dividable ... take a one room suite; studio; on up to an entire villa or villas ... see the rate card combinations!**
